Bachelor of Applied Science - Computer Engineering

Completion December 2010

University of British Columbia, Vancouver BC

Network Administration and Security Professional

Completion October 2009

University of British Columbia, Vancouver BC

EXPERIENCE

The Ubysey

Vancouver, BC

Webmaster

2008-2009

Redesigned and managed a high traffic site for a newspaper with a twice weekly publication. Completed daily updates to the website. Built interactive mini-pages for election coverage and special issues, added more multimedia content, and optimized the website to run 50% faster.

six-four.com

Vancouver, BC

Web & Print Designer

2007-2009

Freelance designer for wide variety of clients. Specialized in simple, visually appealing websites which are easy to update. Clients appreciated value and the ability to share and expand on their vision.

ADP Alumni House

Vancouver, BC

Network & System Administrator

2005-2009

Designed and installed a managed gigabit core network for 30 clients, including load-balancing, traffic shaping and internal network file sharing. Added multi-terabyte file hosting and backup. Network has had a 99.94% uptime over a period of 5 years. Provided network and system maintenance as needed.

Microsoft

Redmond, WA

Software Testing Consultant

2004-2008

Tested pre-release software for issues and bugs. Member of the Windows Vista and Office 2007 beta-testing teams. Recognized as one of the top 50 bug finders in the Office 2007 program.

Atlas Technical

Calgary, AB

Senior Partner & Operations Manager

2004-2007

Value added reseller of PC and network systems to small businesses. Built a niche sales portfolio from the ground up, and achieved sizable growth for 3 consecutive years. Managed a 3 member sales team.
